**SFR-02**  
**Bathroom Exhaust**  
**Fan Ducting**

---

This department will allow the use of PVC solid pipe to serve as concealed ducting material for residential (R-1/R3) bathroom exhausts. Staff has been unable to determine any negative impacts of the use of this material.

Such PVC ducting will be allowed for bathroom exhaust in lieu of metal ducting and will not be allowed for clothes dryers or kitchen exhausts.
